

EWB - JSC Chapter plans to provide clean water solutions to South Nuevo Leon rural communities in Mexico.

The objective is to improve Human development and open a door to dignity by implementing projects that are:

- 1) Sustainable
- 2) Appropriated
- 3) Socio-Culturally & Economically respectful of the local environment
- 4) Viable, Visible, Tangible & Beneficial
- 5) Educational to the community and the local, & International Partners
- 6) Participatory

EWB-JSC PLANS for the future

Statistics: About 250 people per village; the public health challenge is clean water; gastro-intestinal diseases are the major causes of illnesses and death in infants due to gastro-intestinal diseases.
